ME 745 Leading the Church for the Unchurched

Fall, 2003
School of World Mission and Evangelism,
Asbury Theological Seminary
Instructor: George Hunter

I. Course Description

A study of the driving “paradigm”, main agenda, and known dynamics of “Seeker,” “Missional” or “Apostolic” congregations, mainly in the Western world, with emphasis upon “outreach ministries,” building “apostolic congregations,” transitioning traditional congregations, and increasing the effectiveness of churches in their total mission; with substantial attention to the relevant leadership and management issues.

II. Course Objectives

1. To understand theories relevant to effective organization leadership and change.
2. To develop approaches for analyzing a church, and discerning its options.
3. To explore, from “paradigm theory,” the essential nature of the “apostolic congregation” and its contemporary forms.
4. To learn skills, interventions, and strategies for leading churches “from tradition to mission.”
5. To apply leadership and management lore to church turn-around and growth.
6. To contribute to what is known about effective leadership of the Christian movement.

III. Reading Assignments

Masters degree students are expected to read four assigned textbooks, and two collateral texts; doctoral students are expected to read the same four assigned texts, and four collateral texts, and (if they declare a Church and Mission Leadership major) the texts by Bennis and Nanus, Kouzes and Posner, Drucker, and Hunter’s Church for the Unchurched—for Qualifying
Exams. All students are also expected to study any readings for the course posted on the ESJ part of the ATS website. (If you have any difficulty accessing them, call Julee Bellar at 858-2259.)

IV. Requirements and Assignments

The instructor expects the student to accept responsibility for her/his own learning. This responsibility will normally be exercised through:

A. Regular and involved class attendance.
B. Thorough reading of assignments and collateral literature.
C. Submission to the ESJ office, by “high noon” on Friday December 5th, of one of the following six types of a research paper (sugg. 12 to 15 pages):

1. A study of an effective church leader (or leader group) of the present or past.
2. A study of an effective apostolic congregation (or movement) of the present or past.
3. A report, with analysis, of a specific local-church-based “outreach ministry;” feature the kinds of insights that would inform the “planting” of such a ministry in another church.
4. Delineation of a process, with the essentials of a strategic plan, for moving a specific traditional congregation “from tradition to mission.”
5. A traditional term paper on some specific aspect of leadership theory or congregational mission theory.
6. A study of representative writings from an important writer in one of the fields informing this course--such as Peter Drucker, Warren Bennis, Joel Barker, Lyle Schaller, Leith Anderson, Rick Warren, or the several writers from Willow Creek.

In any of those options, the writer should interface the project with the relevant course resources.

*In the first four options, you will proceed by gathering data on the chosen church, outreach ministry, movement, or leader(s) through field research and/or through library research in relevant sources, preferably multiple sources. The instructor does not want a verbatim of your interview(s), or any other mere data, submitted as a research paper. (It is acceptable to include, as an addendum, the raw data (your notes, quotations, etc.) that you gathered on the church or leader(s) that helped to inform your study; at the top of each sheet, put a) researcher's name at the top left, and b) church or leader's name at top right.)

D. Completion of the course’s final exam on Wednesday December 10, 9:00 to 10:30 (11:00 for English-second-language students). The exam will consist of several questions, each requiring an essay in response. Please bring Blue Books for the final exam.

V. Evaluation

A student’s course grade will be based upon the research paper and the final exam, with the final exam given slightly greater weight. Secondary weight will be given to class involvement and contribution.

Literature
The course presupposes that the student is familiar with, and can draw from, the insights of established Church Growth lore, as reflected in:

Required Textbooks for masters and doctoral students:

Required Textbooks for doctoral students who declare a Church and Mission Leadership Major:

Collateral Textbooks on the Emerging Church (masters students—read any two, doctoral students—any four):

15. Mcintosh, Gary L. One Church, Four Generations: Understanding and Reaching All Ages.
22. Scifres, Mary J. Searching for Seekers: Ministry with a New Generation of the

Class Sessions
(Subject to Modification)

Note: Several circumstances require the instructor to be out of town on more class days than usual. Two modifications in the class schedule will enable us to completely fulfill the contact hours we expect for a class: A) We will plan to meet until 5:30 (instead of the pre-announced 5:15 end of class) each day the class does meet. B) Students may take the Alpha Conference (Sept. 11) here on campus OR the Willow Creek “Contagious Evangelism” seminar at Southland Christian Church October 10-11.

So, the class will meet Wednesday afternoons, from 2:30 to 5:30, normally in two sessions with break. Class sessions will vary in their manner of presentation. While some sessions will feature some version of the traditional lecture, others will be devoted to processing readings or case studies, and others will feature some of the videos that the management field and church publishers have produced to teach and dramatize the important ideas and paradigms.

5. Church shoppers want to lead THEIR ministry; unchurched people want to get involved in THE ministry. If a church shopper gets involved for a season, they’ll often want to lead THEIR ministry rather than get involved with your ministry. Maybe it’s a group or something they did at their old church, or a special cause they’re passionate about. Often with serial church shoppers, ministry involvement is more about them than it is about the mission. Unchurched people are usually fine getting involved with the wider mission of the church. They’re content with finding their part in a larger story. A church for unchurched people must limit their teaching content, because there is only so much that a room full of unchurched people can take in (or are willing to take in). At Watermarke, we see NO limit to what we can teach. Now, we do closely monitor HOW we teach, and that’s the difference. Obviously, a church for unchurched people is driven and created to attract unchurched people. We often label these churches “seeker sensitive.” That said, it can be difficult for Christians to find any depth of engagement in this type of church. On the other side, a church unchurched people love to attend will attract both the churched and unchurched in the community and, in doing so, create a healthy dynamic with a wealth of opportunities for each group to engage and grow together. “Unchurched” (alternatively, “The Unchurched” or “unchurched people”) means, in the broad sense, people who are Christians but not connected with a church. In research on religious participation, it refers more specifically to people who do not attend worship services. In this sense it differs slightly from the term ‘nones’ which denotes an absence of affiliation with a religion and not an absence of attendance at religious services. The Barna Group defines the term to mean “an adult (18 or older) who Who we are in Christ. “The Church of the Un–churched” is a full Bible believing body of believers. We recognize The Father, The Son and the Holy Spirit! We enjoy meaningful and engaging worship of our Lord and Savior, Jesus Christ. Traditional and Contemporary churches are no longer giving one a sense of church family. In God’s love, we seek to draw you into a completely different church building model. Many remain unchurched because they can no longer support Pastors, Elders, Deacons and Church Leadership in the destructive decisions that are imploding the body of believers. This is why “The Church of the Un–churched believes we are breaking the barriers of both traditional and contemporary church models. We’ve read all the hot books on evangelism, we’ve attended scores of seminars and still we’re not reaching the unchurched. Eighty to ninety percent of churchless Americans will never darken our culturally relevant, seeker-sensitive doors. What are we missing? Maybe we’ve been asking the wrong people. Instead of consulting the unchurched masses, it’s time we heard what the small but important minority who have recently begun attending a church have to say. What made the difference for them? What critical factors helped spark their faith in Jesus and drew them into the community of believers? Thom
