

AIDS, the Politics of Survival #1994 #Nancy Krieger, Glen Margo #Baywood Publishing Company, 1994 #9780895031228 #281 pages

More broadly, Biehl examines the political economy of pharmaceuticals that lies behind large-scale treatment rollouts, revealing the possibilities and inequalities that come with a magic bullet approach to health care. By moving back and forth between the institutions shaping the Brazilian response to AIDS and the people affected by the disease, Biehl has created a book of unusual vividness, scope, and detail. At the core of *Will to Live* is a group of AIDS patients--unemployed, homeless, involved with prostitution and drugs--that established a makeshift health service. Biehl chronicled the per In one short decade, the politics of AIDS has become the politics of survival. In a world whose social order is changing before our eyes, AIDS insistently brings new meaning to the age-old question of what it is we must do to survive--as individuals, as families, as communities, as nations, as membe

Articles by AIDS researchers, service providers, and activists from around the world will address the numerous social, political, economic, and cultural factors that affect both the spread of AIDS and the social response to the epidemic. *The Logic of Political Survival* is a 2003 non-fiction book co-written by Bruce Bueno de Mesquita, Alastair Smith, Randolph M. Siverson, and James D. Morrow, published by MIT Press. It discusses the selectorate theory of politics. Paul Warwick of Simon Fraser University wrote that the book is "an extraordinary attempt to answer some very big questions" and "much more than its title suggests" due to its incorporation of other elements related to war, economics, and nation-building. Harvey Starr of the Book Description. In one short decade, the politics of AIDS has become the politics of survival. In a world whose social order is changing before our eyes, AIDS insistently brings new meaning to the age-old question of what it is we must do to survive--as individuals, as families, as communities, as nations, as members of an interdependent world.

SECTION II: AIDS: COMMUNITY SURVIVAL IN THE UNITED STATES Introduction Nancy Krieger and Glen Margo AIDS Prevention in the United States: Lessons from the First Decade Nicholas Freudenberg Epidemic in the War Zone: AIDS and Community Survival in New York City Ernest Drucker Pediatric AIDS in the United States: Epidemiological Reality Versus Government Policy Anne-Emanuelle Birn, John Santelli, and LaWanda G. Burwell. Below are 10 books that belong in any library for the work they have done to document the AIDS crisis, as well as placing it in the context of American culture and gay rights.

The signature work of AIDS-related investigative journalism, *And the Band Played On: Politics, People, and the AIDS epidemic* by San Francisco-based reporter Randy Shilts, is the starting point for any contemporary understanding of AIDS and the mid-80s era it defined. Moving between profiling the medical community's discovery of and response to the disease, the gay community's devastation, and the politics that allowed it to proliferate due to indifference on the part of American leaders, it remains one of the classics of modern journalism.
