

The Journal of Political Science, Volumes 7-11. 1984. Department of Political Science, Government College, 1984

About this journal. World Political Science (WPS) publishes translations of prize-winning articles nominated by prominent national political science associations and journals around the world. Scholars in a field as international as political science need to know about important political research produced outside the English-speaking world. The journal's editorial board consists of representatives from the participating national and sub-national associations and journals. Description: The Political Science Quarterly is the oldest and most widely read political science journal in the country. Published since 1886, PSQ offers crucial and timely analysis of both domestic and foreign policy issues as well as of political institutions and processes. PSQ has no ideological or methodological bias and is edited to make even technical findings clear to political scientists, historians, and other social scientists regardless of subfield. Each issue consists of five or six insightful articles by leading scholars as well as 30 to 40 scholarly and useful book reviews. To br The Study of World Politics The Study of World Politics is a two-volume set that presents forty of some two hundred essays authored by Professor James N. Rosenau, a renowned international political theorist. Included are articles recently published and those that have not previously been published. All focus on the study of world politics, with the twenty-three articles in this volume devoted to probing theoretical and methodological challenges.
