Trauma and Recovery. by Judith Herman. www.refocus.org/trauma.html. Chapter Six. The tendency to blame the victim has strongly influenced the direction of psychological inquiry. It has led researchers and clinicians to seek an explanation for the perpetrator's crimes in the character of the victim. Although the complex traumatic syndrome has never before been outlined systematically, the concept of a spectrum of post-traumatic disorders has been noted, almost in passing, by many experts. Trauma-informed, recovery-oriented system of care (TI-ROSC): A coordinated network of community-based services and supports that is person-centered and builds on the Retrieved from <https://www.samhsa.gov/trauma-violence>. 7. paths for recovery; recognizes the signs and symptoms of trauma in clients, families, staff and others involved with the system; and responds by fully integrating knowledge about trauma into policies, procedures and practices and seeks to actively resist re-traumatization.
