Description:

Consistently lauded for its lively, readable prose, turns traditional textbook history on its head, as Howard Zinn infuses the often-submerged voices of blacks, women, American Indians, war resisters, and poor laborers of all nationalities into the narrative. *The Twentieth Century* uses the relevant chapters of that book as a starting point, expanding upon the story to provide a rich portrait of the United States from the jingoistic rise of Theodore Roosevelt to the Clinton presidency. If your last experience of American history was brought to you by junior-high-school textbooks--or even if you're a specialist--get ready for the other side of stories you may not even have heard. With its vivid descriptions of rarely noted events, *The Twentieth Century* is required reading for anyone who wants to take a fresh look at America's legacy as a world power.

Review "Howard Zinn's history is a very different one. It's about the folks at the bottom, the people." -- -- *Philadelphia Bulletin*

"Professor Zinn writes with an enthusiasm rarely encountered in the leaden prose of academic history...." -- -- *Eric Foner, New York Times Book Review*

"Zinn has written a brilliant and moving [book] from most histories....An excellent antidote to establishment history." -- -- *Library Journal*

Queen Victoria died in January 1901, and Edward VII, the son of Queen Victoria ascended the throne. Edwardian Britain was a powerful and rich country, much of its wealth coming from business abroad. Its aim was to see working people represented in Parliament, with the powerful support of trade unions. The Education Act of 1902 met the demand for a national system of secondary education. The government began providing such kind of education, although only a small number of schoolchildren could pay for the secondary school, and the rest had to be clever enough to pass the scholarship exams. While we love talking about international politics and war as much as the next grognard, The History of the Twentieth Century takes an interdisciplinary approach, and endeavors to include art, culture, music, literature, theatre, film, television, science and religion, and their influences on one another and on good old international politics and war. We also try to include the historical perspectives of people not normally considered when talking about history, i.e., everyone who isn't an upper-class, gray-haired, white European straight Christian man. AS FAR AS the differences, THE TWENTIETH CENTURY did a straight forward newsreel type of presentation; although the events depicted and reported on were far from being news. A typical half hour might cover Pearl Harbor, Woodrow Wilson, Poet Robert Frost or the 1919 Black Sox Scandal. WE RECALL THAT it was always interesting, well done using excellent archival news film and kept us entertained; which of course is a very important element. (Can you say 'Nielsen?') The 20th (twentieth) century began on January 1, 1901 (MCMI), and ended on December 31, 2000 (MM).[1] The 20th century was dominated by significant events that defined the era: Spanish flu pandemic, World War I and World War II, nuclear weapons, nuclear power and space exploration, nationalism and decolonization, technological advances, and the Cold War and post-Cold. It took over two-hundred thousand years of modern human history and 6 million years of human evolution. The century saw a major shift in the way that many people lived, with changes in politics, ideology, economics, society, culture, science, technology, and medicine. It was a century that started with horses, simple automobiles, and freighters but ended with An edition of *The twentieth century, a people's history* (1984). *The twentieth century, a people's history.
