Read full description. See details and exclusions - Child Well-being, Child Poverty and Child Policy in Modern Nations: What Do We. Qty. 1 2 3 4. Handbook of Child Well-Being. Theories, Methods and Policies in Global Perspective. With 138 Figures and 85 Tables. Editors Asher Ben-Arieh Paul Baerwald School of Social Work and Social Welfare The Hebrew University of Jerusalem Jerusalem, Israel. We thank the International Society for Child Indicators that has been an intellectual home for this project and supported our editorial board meetings. We also thank our home institutions for offering us encouragement and support in time and resources. We thank our editors at Springer, Myriam Poort and Esther Otten, who believed in this project from its inception and have contributed enormously to its successful completion, and to Miranda Dijkman for her outstanding organizational and editorial skills in all aspects of the Handbook. PART TWO looks at what children say about their own well-being (including a league table of children's life satisfaction). PART THREE examines changes in child well-being in advanced economies over the first decade of the 2000s, looking at each country's progress in educational achievement, teenage birth rates, childhood obesity levels, the prevalence of bullying, and the use of tobacco, alcohol and drugs. 2 Innocenti Report Card 11. Introduction. The league table opposite presents the latest available overview of child well-being in 29 of the world's most advanced economies. Five dimensions of children's lives have been considered: material well-being, health and safety, education, behaviours and risks, and housing and environment. Child poverty and the well-being of children is an important policy issue throughout the industrialised world. Some 47 million children in 'rich' countries live in families so poor that their health and well-being are at risk. The main themes addressed are: the extent and trend of child poverty in industrialised nations; outcomes for children - for example, the relationship between childhood experiences and children's health; country studies and emerging issues; child and family policies. All the contributions underline the urgent need for a comprehensive policy to reduce child poverty...
