Read 18 reviews from the world's largest community for readers. One of The Week's Best Business Books of 2014 The European... " Bootle expertly outlines the factors that gave birth to the European union of the twentieth century, from the collective Euro-spirit that initiated a solution to the region's various problems and the subsequent unforeseen consequences of the compromises nations made in order to create a sustainable organization. Bootle examines how the euro has hindered independent actions of member nations, both economically and politically, before envisaging how a post-EU Europe might come about and how it would affect the United Kingdom, along with other member states and the world at large.
