Media and Cultural Theory is an ideal guidebook for undergraduates studying a range of Media and Cultural Studies courses. Covering over thirty theorists, the book is organised into ten chapters, each focusing on a specific theoretical strand. Alongside more traditional forms like film, television and music, the book also makes reference to Facebook, YouTube and MySpace. In this direction, the book can be viewed as a starting point for students, guiding them as to how they might begin to incorporate the seemingly bewildering selection of theoretical perspectives on offer into their own work. Though we have endeavoured to provide the reader with useable précis of each writer's key work and useful bibliographical advice, it should be emphasised that there is no substitution for reading the original texts. linguistics, communication and cultural studies. 3. Communication as process. Language as a powerful means of communication. Indirect communicators ask many questions. They quietly observe in meetings, offer suggestions for consideration, like to get others involved in discussions, use words like 'maybe', 'possibly' and ask others to consider their ideas. There is an opinion that 'Indirect communicators do not believe everything needs to be said. They are often part of a culture that is more group-focused rather than individual-focused.
