## Science Experiences for the Early Childhood Years: An Integrated Affective Approach

By Jean D. Harlan, Mary S. Rivkin

Pearson Education (US), United States, 2011. Paperback. Book Condition: New. 10th Revised edition. 229 x 183 mm. Language: English . Brand New Book. A classic in the field, this text takes an integrated approach to science without watering it down, and emphasizes understanding and addressing children's affective nature. It remains a forward-thinking, innovative resource for teaching science to young learners, and a best-selling resource for the field. Clearly organized, the text provides a research-based rationale for early science education in Part I chapters. Emphasizing that meaningful science for young children builds on the emotional underpinnings of their curiosity and concerns about the everyday world, and their pleasure in exploring it, this resource encourages new teachers to help children live appreciatively and thoughtfully on Earth. The topical chapters in Part II offer solid, accessible, concept-based activities and are concurrent with the vision of the new Framework for K-12 Science Education, being developed by the Board on Science Education of the National Academy of Science. For each unit presented, students are provided with all the comprehensive integrating and connecting elements to strengthen children's learning of science. Early educators' own content and pedagogical knowledge will be expanded as they practice using...

Learning: An Integrated Approach to Early Childhood Curriculum. Hope K. Gerde, Rachel E. Schachter & Science Experiences for young children. However, high-quality science education has the potential to lay an important foundation for children's knowledge and interest in science, as well as reinforcing and integrating critical language skills. This is perhaps due to the findings that children who engage in scientific exploration in early childhood have a better understanding of science concepts later in life. (Eshach and Fried 2005). One of the critical problems facing early childhood science education is supporting teachers to effectively implement science in the classroom. Science Experiences for the Early Childhood Years: An Integrated Affective Approach: Volume 10 Paperback 2 Mar 2011. by Jean D. Harlan (Author), Mary S. Rivkin (Contributor). For over 20 years, Harlan's and Rivkin's text has remained a classic in the field of early childhood science education. Its innovative, forward-thinking approach has instructed countless pre-service and new teachers on how to reveal the wonder of science to young children. Exciting new research and theories and their links to early childhood science approaches are presented in chapters 1 and 2. A broadened view of appropriate formative assessments concurrent with the National Science Teachers Association assessment focus and on STEM education. Start by marking Science Experiences for the Early Childhood Years: An Integrated Affective Approach as Want to Read: Want to Read saving | Want to Read. A core text for Science in Early Childhood courses at the 2-year or 4-year level for those who will teach young children in preschool or in the primary grades.
