Their comments and suggestions for improvement of the book will be most welcome. SHANTHI, East Hill Road Calicut, Kerala 673 006. CK Jayaram Paniker. 4 Textbook of Medical Parasitology. The term anthroponoses has been applied for infections with parasitic species that are maintained in humans alone. Medical parasitology studies peculiarities of structure and life cycles of parasites, interrelations in the system "parasite-host" as well as the methods of diagnostics, treatment and prevention of parasitic diseases. The forms of parasitizing are extremely diverse and it is possible to classify them according to different principles. During parasitism parasite population exploit host population that experiences unfavorable influence from the parasites. This is a positive, negative relationship (+, -). Medical Parasitology is the study of organisms which parasitize humans. Classification of parasites. According to the nature of relations between a parasite and his host there can be Textbook of Medical Parasitology. by Sougata Ghosh. Textbook of Medical Parasitology. 250.
