The easiest crafts are at the beginning, to allow the reader to practice scaffolding their knowledge as they learn the domain-specific vocabulary. Get A Copy. Amazon.

1. Beads made from plastic bottles. Are you the kind of careful DIY enthusiast who loves to get messy, use your hands, and sometimes even try things that might be a little bit dangerous if you’re not careful and patient? Then we wouldn’t be surprised to hear that you’ve actually tried crafts that involved melting plastic before. Are you still thinking about how awesome the idea of making your own beads out of polymer clay would be but you’re very new to the idea of homemade jewelry or perhaps crafting and DIY in general? Then maybe you’d have more success with an even simpler tutorial that really breaks the steps down and primarily sticks to just the basics. That’s exactly what you’ll get from this resource featured on Fall for DIY! Clay beads are simple and fun to make. They make great statement jewelry, charms, and key chains. You can make them using air-dry clay or polymer clay. Protect your work surface. Air-dry clay can get messy, it’s a... Make the clay cubes between the size of a pea and a blueberry. Larger, grape-sized beads may take too long to dry. If your clay is difficult to work with, dip your fingers into a cup of water and smooth them over the clay. The water will help soften it.
