In general, there are four basic structures for a corporate acquisition: (1) a taxable acquisition of a target corporation's stock; (2) a taxable acquisition of a target corporation's assets; (3) a tax-free acquisition of the target corporation's stock; or (4) a tax-free acquisition of a target corporation's assets. An acquisition is a corporate action in which one company purchases most or all of another company's shares to gain control of that company. An acquisition is often friendly, while a takeover can be hostile; a merger creates a brand new entity from two separate companies. Real-World Example of Acquisitions. AOL and Time Warner (2000). This best mergers and acquisitions book has given a lot of case studies and practical examples so that the readers can connect with the fundamentals and, at the same time, learn what to expect from a real-life merger and acquisition.
