Description:

From the Publisher Coaching is an explosively-growing new approach to developing leaders and helping people reach their full potential. Embraced by both business and spiritual leaders worldwide for its power to transform lives, coaching is rapidly becoming one of the most important ways to build leaders. Do you want to increase your effectiveness in working with people, developing leaders, and transforming lives? *Leadership Coaching* can show you how.

Leadership Coaching is an essential tool for anyone who wants to learn to coach or improve their coaching skills. Written by a top international Christian coach trainer, it is filled with real-life stories, practical tools and application exercises that bring coaching techniques to life.

The book begins with in-depth look at the heart of a coach: the values and character qualities that give coaching its tremendous power. Going far beyond mere proof-texting, *Leadership Coaching* demonstrates how coaching fits with the broader purposes of God in history. Starting with key biblical concepts about how God builds leaders, the book presents an integrated, values-based paradigm for developing leaders through coaching. As one coach trainer says:

"Without a doubt, it's the best I've read in the coaching genre. Tony has raised the bar for books on coaching with Leadership Coaching. This is especially true for coaching books written from a biblical perspective."

Part II uses a hands-on, interactive approach to **show** you how to coach. Utilizing the seven key elements of effective coaching as a framework, each facet of the coaching relationship is explained and illustrated in detail. Once you've grasped the major concepts, *Master Class* sections provide a wealth of tools, models and exercises to help you apply coaching concepts to real-life situations. From extensive lists of powerful questions to 50 key coaching principles, from tips on giving healthy feedback to tools for problem-solving, *Leadership Coaching* delivers the practical insights you need to coach effectively.

Well written, filled with great resources and eminently practical, *Leadership Coaching* is a great introduction to a powerful way of helping others grow.

From the Author How This Fits with My Other Coaching Books

Leadership Coaching is the book to start with to learn how to coach. It covers the basic coaching values and mindset, how to carry on a coaching conversation and basic concepts like goals and actions. The *Christian Life Coaching Handbook* builds on this foundation, providing a set of coaching tools specific to life purpose discovery and showing you how to use them. *A Leader's Life Purpose Workbook* is a shorter version of this Handbook. Designed for the coaching client, it includes all 60 discovery exercises from the Handbook, so your clients can use them as destiny discovery action steps.

Coaching Questions is my most popular book. It's a reference guide to a plethora of coaching techniques (for experienced coaches), and a great aid to questions for those who are just learning. With over 1400 example questions arranged around the coaching tools they are used with, this book can help you coach like a pro from the start. If you get one other book with *Leadership Coaching*, get this one.

I also have a variety of coaching audio CDs and training products from Coach22 on Amazon. Coaching is an art, and one of the best ways to learn is to listen to an experienced coach at work. If you want to grow as a coach, listen in on a set like *Coaching Transitions* to catch the flow of a real coaching conversation.

Christian Leader Coaching. The idea of coaching and mentoring tend to come together and blur into each other. Consequently, various authorities differ on their definition and even whether they are different; thus the words are often used interchangeably. For our purposes we will consider them to be different and to have the following roles – both are important in a Christian leadership style which reflects Christ’s servant heart: Mentoring. Mentoring fosters the growth of a person as a person. Coaching is about developing the technical competence of an individual or group in a particular skill or expertise. Coaching is, however, about more than simply developing technical skills through one-to-one instruction. The COACH Model for Christian Leaders: Powerful Leadership Skills for Solving Problems, Reaching Goals, and Developing Others. Keith E. Webb. 5.0 out of 5 stars 2. Paperback. £10.77 Amazon Prime.

The Invitation: Transforming the Heart Through Desire Fulfilled | A Practical Guide. By doing this, he makes it clear that to practice the disciplines and skills of a coach from the well of a Christ-like heart is to walk in the footsteps of the most riveting figure of history, Jesus Christ! Read the book, do the exercises, and ask God to transform your way of being with people even as He transforms the way you view them; to see others through His eyes, full of potential to become more and more the people He made them to be, to do the things he made them to do. Christian coaching is best summed up by this quote from a book, Living the Life You Were Meant to Live, by Tom Patterson. A Life Plan is God’s plan for your life. It is not a plan that you conceive and develop, but a plan that you discover through a series of helpful exercises and processes. Qualities of a Good Christian Coach. What do great coaches have in common irrespective of whether they are Christian coaches or not. Good coaching skills and experience is naturally a given. But what else do they have that separates them from the average coach? I have also provided tips throughout my blogs on what you can do to become a successful coach. In a previous blog Top 10 Coaching Skills You Must Have as a Life Coach, I have mentioned the top qualities.
