Consult the Microsoft Visual Basic Programmer's Guide and Microsoft Visual Basic Language Reference Manual for detailed reference information. The notes refer to several software and hardware products by their trade names. These references are for informational purposes only and all trademarks are the property of their respective companies. Lou Tylee Course Instructor. Contents iii. Learn Visual Basic 6.0. Contents. 1. Move and size the controls and form so it looks something like this: 1-10 Learn Visual Basic 6.0. Setting Properties of Objects at Design Time. Each form and control has properties assigned to it by default when you start up a new project. Free. Windows. This is the complete package of runtime files and redistributable libraries for running or distributing applications written in Visual Basic 6.0 and together with some third-party redistributable components. Notes and Disclaimer: * Visual Basic 6.0 is a trademark of Microsoft Corporation. * All trademarks and components are owned by their respective owners. * The developer's scope was the collection of VB6 redistributables and creation of installer only. * Use at your own risk, the developers was not responsible for any damages for using this software. To show the VB6 Program Credits create an 'About' button to the standard toolbar and rename its caption to 'Show VB Credits'. Here's a bit more detail: Right-Click on a toolbar and select 'Customize'. Within the 'Commands' tab select the 'Help' category. Drag the 'About Microsoft Visual Basic' command (right windows of dialog box) up to the end of the standard toolbar. Without closing the 'Customize' dialog box, Right-Click on the button you just created and change its Name to 'Show VB Credits'. Close 'Customize' and click the new button.
